Altoros Is Recognized as a One of Top Hadoop and Big Data Consultants

March 19, 2014—Altoros has been recognized as a proven market leader in Hadoop and big data consulting, according to a study by Clutch (ex-SourcingLine, a research company based in Washington, DC). Their Leaders Matrix leverages proprietary research and methodology to identify top services firms and map their capabilities. Companies are plotted on the matrix based on their proven ability to deliver and focus on a service type.
The analysis based on verified customer interviews gave Altoros a high ranking on two lists: Top Big Data & BI Consulting Companies and Top Hadoop Consulting Companies. (Bubble size indicates relative size of the firms.)

Hadoop Consulting Leaders Matrix

"All of the selected companies focus primarily on Big Data analytics or Hadoop and have proven they can provide tangible value to data driven enterprises. However, it is often challenging for prospective buyers to devise a short-list of leading firms. Our research aims to expedite the procurement process and help connect buyers with qualified service providers."
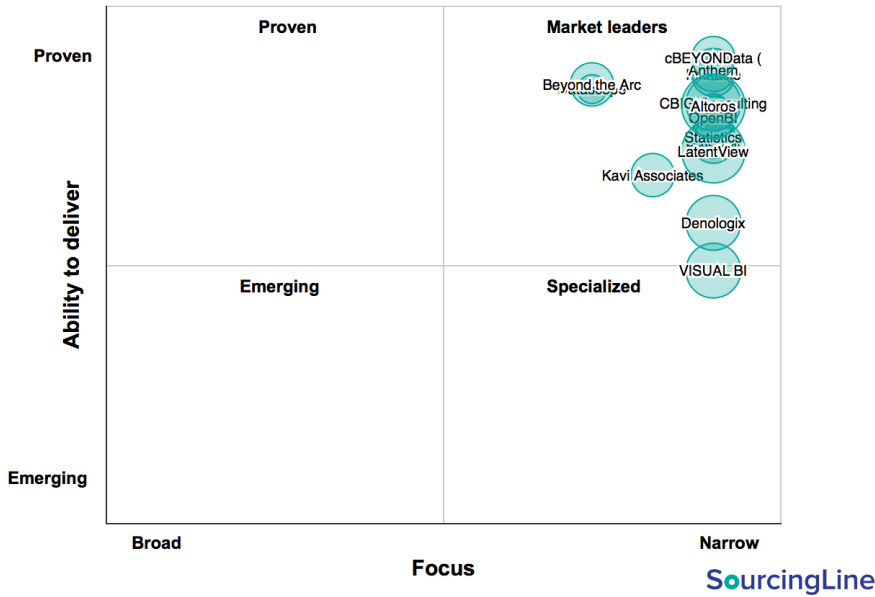

Tim Clarke,
Sr. Business Analyst,
Clutch (ex-SourcingLine)
